Dear Carolyn, Bill and all:

I received Neil's letter and the pictures and they were so very cute. It looks like little Betty is getting so big. My Neil looks so cute with the stick horse. We love you all so very much and we are all good and in good health so you folks have nothing to worry about down here.

Shelma Jane moved today and she sure received some swell gifts. She sure is real happy. I am going to take Mother and Shelma down town shopping Wed of this week. I do have to find a suit to wear for the wedding. It sure has been quite a spell since I have written a letter so please look over my writing. Mother in PR but tired. Shelma & Don went out to pay their rent for a month. Don is going to raise us potatoes in their garden they some have big plans. It is always good to talk to you all on the phone. So glad that Bill is in his new office at this time. We are looking forward for your visit next week. Do keep the children well and do hope you all are well.

I think Mary has Donnie on her mind as she had a good talk with us this evening.

Mark come at 7:30 tonight and is now
working for the State Road ^{HIGHWAY DEPT.} or some kind
of a draftsman. Mary Lou thinks that
he is kinda going back to his child
hood days as he is always talking about
his horse and a little teady bear. She
does not know what is ailing him as
she said he seems to be like a little
boy and his folks laughs at him. But
she thinks there is some thing serious
wrong with his mind. Please do not
mention this to any one.

I very drove us to Aunt Curwin's
yesterday and the potter plant that we
saw from Arthur's family was beautiful,
all the flowers were so pretty. The law
and F. G. did not come or call us after
I called them about the funeral. We did
not go to the Cemetery only to the house
and church, so much for that. The
weather here today was so pretty and I
saw bees flying around so it wont be
long now until spring.

My work is going real good and
last week I really sold - 6 - new cars for
not so bad.

I went to see Mr. Weir yesterday
at home and he seems to be a little
weak. He is going to try to drive

131
back and forth if he feels good. He
has lost some weight but look pretty
good for the shape that he is in.

Keep Bill fishing season is not
too long off now. and I do hope that
we can come down to visit with you
all this summer.

Mother is talking to Colene on
Phone about a dress of hers for the wedding
as we want her to look her best.

I want to have the garden planted
this week if we do not have rain. It
sprinkled this morning a little but a lovely
day and warm. The temperature at 8:00 tonight
is 54 Degrees. We love all of you so
much and we wish you all the best
in life. Kiss Neil, Billy, and Bill for us
and give our love to Elizabeth. I bet
she is having some times with the 2
Boys too.

I want to pay you for the rest of the
spoon & fork set for Phelene Jane as we
think that we would love to give her
the whole set from us. It would be much
better for her to say Mother & Daddy gave
this to us instead Coroly & Bill gave me
part of it. I think it is the reason that
we are going to give her the whole set.

Mary Lou really had a lovely time on her trip it did her so much good to get away. But she was glad to be home so she was so tired.

I have a real good supply of film for my Polaroid camera when you all come home for Neil's Birthday. Do hope all will be well for the trip.

Neil & Billy sounds so cute on the phone and so cute how he said Jesus loves me. I do not know what else to say only don't feed Billy too much and wash him well.

I will close now as I have run out of words.

I talked with Mother yesterday and she said that Clara & Jimmy came up to see them on Wednesday of last week. They tried to call us but Hazel went to her club meeting to present her talk on the Public Lawage group. They said that she really did a swell job of presenting it to the club.

Now I will close with all our love to every one

= BO - WO = AND Daddy, Mother
MA-MA.

(5)
P.S.
We thank you for the picture that
you sent us.

Do hope the Elizabeth does
not have to go to school every
Saturday, and that she will not
have to miss any more school.

I have so my little fish that
I do not know what to do with
them. I told Lucy that she could
have some if she fixes up her bowl.

The Bank is still after Cleave
to close out all the accounts so they
can put it on record. He asked me if
I went to the Court House to see Mr.
O.W. Will and I told him no. He
said that he did not either. It will
take a year to settle estate in
full after death he told me.
He is worried about his money
if he leaves it to Billy he is afraid
that Virginia will go through it all
which she would. I call him each

evening to try to cheer him up as
he is down in the dumps. But he
likes to talk to me.

He still said that if he gets
well we will start a business 100%
Borden ship in used Corv. But I am
afraid of all the Corvort features
he would lose too long as he seems
so very weak.

So I will close
hope to see you all real
soon do hope that Elizabeth
can make it too

Love
Daddy
and Bo-Wo.

I hope you all will not die
laughing at this letter. I thought
that Mary + Mother would have cats
laughing at it.
