

1- June 14, 1949

Dear Sylvia

He looked for you when Don had his promotion exercises. "What happened?" If there is anything more goes on when school starts we will let you know. Next Tues. eve. Chuck is buying a car. He is working on the pipe line again this summer. He is blacker as an Indian. Don left on the 2nd. and is now having a swell time in Cal.

There are about 10 or 12 of the boys in Chucks graduating class who are working on the pipe line yesterday they worked in Camp Hill. don't know where they are today. Did you get any cards from Rach & Clarence. This is there last week in Florida. they sure are having one swell time.

are you working every day now. On Mon. I expect to go to work in the hospital for the summer sure would like to get on steady in there.

This morning I dreamed of my Mother & Father the first since they died. How do you like this weather and how are Kay Ann and Jean behaving. Chuck expects to enter Shippensburg this fall I hope he sticks the whole 4 yrs. How are your Mother & Dad? Ask your Mother if she will put the old pattern for those shorts I fetched over in a small box and send them to me as I want to have some shorts made for the summer. Carrie and the family were over a couple times she gave me a swell picture of Charlene & Donna. Skip gave me a small picture of himself. I sure don't like this weather. Do you know anyone who does. It is almost 12 noon and I'm still sitting here in my pajamas. I sure hope I get a letter from Don today. So far we have got nothing but cards. Hardly know what to write. I do want to go in shortly after I start work and get my lower set of teeth. I have 5 days in for this pay sure hope I can make tomorrow & Thurs. I need the kale if you get what I mean

I never knew until this
morning I missed getting
you a B. day card as soon
as I get in town on Sat.
I'll have to get you a
belated one also, one
for the little twerp &
Dick. must close now
lots of love
